

SaleSpider.com – Find Out How Your Business Is Listed Online

Do you wonder how or if your business listing shows up in various directories on the internet?

The SaleSpider business directory now automatically allows businesses to know exactly where their listing can be seen.

Do you wonder how or if your business listing shows up in various directories on the internet? The SaleSpider [business directory](#) now automatically allows businesses to know exactly where their listing can be seen.

When a business listing is added or edited on SaleSpider, a scorecard will be provided immediately. This scorecard shows exactly where a business name is seen on specific business directories online such as Yahoo, Yelp and Whitepages. If the scorecard shows poor results, users are able to fix their local search listings in minutes.

The business directory on SaleSpider.com is home to over 12 million businesses and is growing by thousands every week.

Visitors viewing the SaleSpider business directory can search by keyword and location or browse by business type and area. Plus, members can also click on local business directory page that immediately shows them businesses within a 25 mile radius of their location.
